

Academic Dialogues 2019

The Call for Proposals in Humanities and Social Sciences

The French Institute in Israel

In Social Sciences and Humanities, the French Institute in Israel is the partner of Israeli Universities and Research Centers for scientific and academic cooperation between France and Israel and the promotion of French thought, language and literature.

With this in mind, beyond its role of expertise and counselling, the French Institute in Israel launches a **Call for Proposals** for Israeli research and higher education institutions to support events organized in Israel in partnership with French institutions **in 2019**.

CONDITIONS :

- These events must involve the participation of French intellectuals, scientists or writers **from France or working in French institutions** to academic events or scientific congresses that will occur **in Israel in 2019**.
- The projects must be sent by email to academicdialogues@ambfr-il.org at the latest **on the 26th of November 2018 at midnight**.
- The jury will favour high-level scientific events that contribute to develop the bounds between France and Israel.
- Only the flight ticket to Israel and translation expenses can be taken into account. Tickets will be reimbursed up to 600 euros and the maximum grant per conference will be up to 5000 euros.
- An invoice from the organizing institution or nominative French invitees and proofs of payment will be requested.
- Once the proposal approved, the theme and the participant(s) cannot be modified without consent from the French Institute in Israel.
